EDITORIAL BREVITIES.

We may expect to hear of the Fenians claiming St. Patrick as an ancient, Head Center of their Brotherhood, for they have actually brought out a prophecy of St. Columkille who flourished *only* thirteen hundred years ago. The wonderful document has been resurrected by the patriots, and, in a cheap pamphlet form, is now scattered broadcast throughout Ireland. The Fenians claim that St. Columkille had a vision—a wonderful vision—in which the affairs of the nineteenth century were carefully noted and the actions of the Head Centers well watched. At all events, St. Columkille prophesied the freedom of Ireland, and the pamphlet just published appears to give the venerable individual's exact words upon the subject.

The body of James Walsh, of Washington, who disappeared mysteriously during a recent Masonic corner stone laying at Baltimore, has been found in Smith's dock of the latter city. The body was stripped of all clothing except an undershirt and cravat, and suspicions of foul play are entertained. The Masons are busily engaged in investigating the matter.

The Suffrage Question, which trouble the rest of the conservatives in this country, equally disturbs the quiet of Great Britain. On both sides of the Atlantic the popular instinct turns to the flag of the United States as symbolizing the right of all citizens to participate directly in the contr l of government.

Even in Ireland old John Brown, of Ossawatomie, is acknowledged to be an Apostle of Liberty. At the reception of Mr. John Bright in Dublin, the John Brown anthem was chanted by enthusiastic Hibernians. His ashes from their urn have more power than all his living enemies.

A warm discussion is progressing between ex-Senator McClure, of the Chambersburg *Repository*, and ex-Senator Hiestand, of the Lancaster *Examiner*, on the respective claims of Stevens and Curtin for the Senatorship.

The cause of temperance has found new life in all the principal cities of the North. There are about as many drunkards in Pittsburgh as elsewhere, yet we hear of no popular movement to effect a temperance reform.

The proposition to reduce the Southern States to the Territorial condition has been introduced into both Houses of Congress. Mr. Thomas, of Maryland, has a bill prepared to this end, which he will presently submit.

A young woman was assaulted in the streets of Philadelphia by two ruffians on Tuesday morning last. Her cries for help brought the police, who arrested the villains.

The Union Men of Arkansas agree with those of Louisiana in urging Congress to overthrow the State governments established by President Johnson.

Roscoe Conklin, M. C., for the Oneida district, is strongly pressed by the republican journals of Central New York for United States Senator.

The Episcopal Church Diocese of Michigan numbers now over 70 parishes, 50 church edifices and five thousand communicants.

The Baltimoreans are forced to acknowledge the talent of a negro artist named William Simpson who resides among them.

The newly elected Judges of the Philadelphia Courts were sworn in on Wednesday last, and have taken their seats.

Cock fights and sparring matches on Sundays are very fashionable in the half civilized city of Galveston, Texas.

Low Priced Pianos.

Extract from *Musical Review*: The following are the chief reasons of their (Haines Brothers') great success:

1st. They were from the very start intelligent, practical workmen, who not only knew how to embody in their instruments every then known improvement, but who were (and still are) bold enough to try new experiments and see how pianos might be still further improved.

2d. They were not only men of integrity and uprightness, whose word was as good as their bond, but too conscientious to allow themselves, for the sake of realizing money quickly, to throw together a piano from unseasoned or improper materials. Every instrument must, of its class, be as good as they know how to make it, before they would suffer it to go out of their hands. The consequence is, that every piano they send out becomes an eloquent eulogy upon the establishment whose name it bears—a standing advertisement worth a hundred newspaper puffs.

3d. They may still be found in their factories with coats off and shirt sleeves rolled up, personally making, or superintending the making of every essential part of each instrument. Charlotte Blume, 43 Fifth street, who has been the sole agent for the Haines Bro.'s for the last seventeen years, has just received fifteen pianos from their factory, to which the attention of persons wishing the CHEAPEST FIRST CLASS piano in the market is respectfully directed. These instruments range in price from $300 and upwards.

OUR MOTTO.

We use such Balms as have no strife,
With Nature or the Laws of Life;
With our blood our hands we never stain,
Nor poison men to ease their pain.

Our Father, whom all goodness fills,
Provides the means to cure all our ills;
The simple herb beneath our feet,
Well used, relieve our pains complete.

A simple Herb, a simple Flower,
Culled from the dewy Lee—
These, these shall speak with touching power,
Of change and health to thee.

TELEGRAPHIC SUMMARY.

The British American Insurance Company has paid in gold all the lossess incurred by it in the recent Quebec conflagration.

The Governor General of Canada left Montreal last night for England.

Capt. Maitland, of the Royal Engineers of Canada, broke his leg while skating at Quebec yesterday.

The Canadian authorities show much politeness to Gen. Averill when he arrived at Sweetsburg. A guard of honor was posted about the hotel, at which he stopped, remaining during the night. He is now the guest of Mr. O'Halloran, M. P. P. The General is there to witness the Fenian trials.

Gov. Patton, of Alabama, is out in a special message advocating the adoption of the Constitutional Amendment.

The Montreal *Gazette* says that Mr. Seward's letter concerning the Fenian prisoners has caused deep indignation in England, and that the President's message will not allay this feeling.

The Grand Jury at Sweetsburg, Canada, have found true bills against fourteen of the Fenian prisoners. No bills were returned against Powers and Cobourn, and they were discharged. The objections taken by prisoners' counsel on jurisdiction will come up for argument on Monday next.

Mr. Devlin, Counsel for Fenian prisoners made application yesterday to the court for copies of the indictments against the prisoners for inspection and use of self and Gen. Averill, who was acting in behalf of the United States Government. The court granted the application to prisoner's counsel, but could not in any way recognize a foreign government in the trial.

A project has been started in New York city to establish a naval school, under the auspices of the City Board of Directors.

A meeting of the Fenian Senate was announced to be held yesterday in New York. Ireland is again to be made free—on paper.

The Anneke Jans heirs will hold a meeting at Poughkeepsie, N. Y., on the 3d day of next year.

The Government has issued orders to the Brooklyn Navy Yard to get all the vessels, sloops and gunboats there ready for sea with the utmost despatch. What does this unusual activity mean? The "Gettysburg" has been commissioned and ordered to join the squadron off the West Indies.

The election of Richard Connelly as Comptroller of New York, is to be contested by his opponent, on the ground that his tickets were refused improperly at some of the polls.

Three policemen were beaten by rowdies yesterday morning at Philadelphia in endeavoring to arrest a party of roughs. Officer Still was stabbed in the left thigh, receiving an ugly wound.

Attorney General Beaile, of Massachusetts, has given an opinion setting forth that it is the duty of the Governor to give Benj. F. Butler a certificate to Congress, inasmuch as the record shows that he has been elected by the majority of the votes cast, and the Governor cannot "go back" on that to make inquiries as to his citizenship.

Gov. Perry, of South Carolina, publishes a long letter yesterday morning, in opposition to the Constitutional Amendment. He is in favor of calling a National Convention of delegates from all the States to settle and amicably arrange all disturbing questions.

A meeting of the New York Chamber of Commerce was held yesterday afternoon. A petition was read praying Congress to abolish export duty on cotton. A resolution was adopted petitioning Government to employ a naval squadron to make necessary sea soundings for a new ocean cable to connect France and Southern Europe with the United States. Such a line would hardly cost more than six millions of dollars, and, it was urged, the country would gain more than that, or double the same, in political strength and security.

Murder at Sharpsburg.

At about eleven o'clock last night, a fatal shooting affair occurred at Sharpsburg, the victim being one, James McCutchen. McCutchen it seems was a single man and boarded at the house of Herman Raum. Last evening he went to Stewartstown and did not return until the time mentioned.

During the evening Robert Maloney, a yagarnt negro, about sixty years of age, carrying a shot gun, came to the house and begged for a night's lodging. He was allowed to sit in the dining room, and retired. About eleven o'clock the report of a gun was heard from the dining room, and Mr. Raum, accompanied by Constable Tighe, who happened to be in the house, ran to the spot. They found the negro up and loading his gun for a second shot. He was secured, and on investigation McCutchen was found lying in a dying condition on the ground under the open window of the dining room. The negro stated that he was accosted by the man running under the sash and setting it down inside, saying as he did so that he was going to get in and mash the negro's head. Maloney, without warning, fired through the open window, the load passing through the left breast of the unfortunate man and coming out at the back. Dr. Robinson, who was called in, pronounced the wound necessarily fatal and the wounded man could not live there; and had poisoned the minds of all her other relatives against her to such an extent that she had no place on earth to call a home, and was forced to go out in the world and earn her own living. She finally gave out and had found that there was no place for her; nothing that she could do, and she could not bear to beg her way from place to place. She was in a state of mind bordering over her hopeless prospects, and anxious not to leave her little daughter to a fate worse, perhaps, than death, she calmly resolved to end both their lives, and after making up her mind to this effect, came to Wheeling to carry out her resolve. She purchased laudanum, arsenic, and also several papers of powdered opium, and seems to have made minute preparations for death, as the documents published below show. She also said that for several hours after arriving, she could not bear to kill her child, and yet she felt all the time that she must do it. She walked the floor, fell asleep, and then putting on its night clothes, and placing it in bed, bent over it, and kissed it several times before planting the dagger in its little heart. The child, she said, also smiled, made no cry, but only moaned, and with scarcely a struggle bled to death. She had stabbed it three times, twice in the breast, and once in the heart. She says that before she took its life she knelt down and prayed over it, and also repeated her prayer after she had killed it. She washed the blood off, and kissed away its last expiring breath.

After the perpetration of this horrible and unnatural deed, she took the opium with which she proposed to take her own life, and then lay down beside her dead child to die. From some cause, either from an overdose of the opium, or else from an insufficient amount of it, she failed to accomplish her intentions of suicide. She had vomited a great deal, and seemed to have thrown up most of the poisonous powders, with directions in a female handwriting, were found among her effects, as were also a number of letters. She is a young woman, aged only about twenty-four, rather illiterate and evidently unbalanced in her mental and moral organization. The following letters serve to show the character of the writer. We have re-written, and, as it were, translated them from a mass of almost illegible manuscript.

Union House, Wheeling, West Va.

Mr. Reporter—When you discover that I have committed suicide, don't let a crowd of people full of curiosity into my room to gaze upon my remains. I wish to be laid out on the floor, with plain coffin. Lay my dead baby out too and place her beside me, with her head upon my bosom, with my arm around her, and lay us in our graves. I am tired and sick of life. Be careful of the packages left behind, and put one in the office and give the other to an Editor to publish, if any one will be sokind. I shall like to be buried in the new cemetery at Marietta, Ohio. Cursed be those who fail to do this. Oh! sir, pity me for God's sake, and also as a Christian here to die. Do not throw anything from my person that I have placed there. Mrs. Minnie Nugent.

Marietta, Washington Co.,

Union Hotel, Wheeling, West Va.,

Mr. Editor—No doubt you and others will shudder this night in your comfortable beds in the dining room, and retired. TO YEARLY ADVERTISERS.

Owing to the large amount of advertising patronage with which we are favored, and for which we are duly thankful, and the increase of our circulation, altogether beyond our present means to supply as promptly as we ought, we find it generally inconvenient, and sometimes quite impossible, to insert changes for yearly advertisers, unless left at our counting-room before seven o'clock in the evening.

INDIANA AND HER SENATOR.

The great war, which in its fighting phase now belongs to the past, was emphatically the people's war. It has often seemed to us that it was almost directly guided of that Power which is over all. It was infidel France which coined the phrase of "organizing victory." Yet God works ever by means. Some names were, even in our Heaven-directed conflict, written in letters of light upon the imperishable page of history.

It has often seemed to us that opposition to the war took its most malignant form in the State of Indiana. That wing of the secession hosts which overlapped the Ohio and organized itself in Blue Lodges and Knights of the Golden Circle in that State, constituted really an extensive and formidable power. Concealed from the eyes of men in conclaves impenetrable to the uninitiated, it seemed as if it would bear its fruit of murder and rapine even before the loyal-hearted could know what was in preparation.

We think we are doing no more than even justice to Governor MORTON, of our sister State already named, when we say high credit and the thanks of all true patriots are due to him for the noble manner in which he met the responsibilities of his position at that time of trial and of peril. He had to meet and repress a secret rebellion in the heart of his own State at the same time that he was replenishing the wasting ranks of the Indiana regiments in the army of the Union. He succeeded in both. No man ever fought a double battle more gallantly.

We learn from our exchanges that he is a prominent candidate for the United States Senate. If we, who have only that general interest in the matter which all good citizens feel for the glory of the country as a whole, may be permitted to express an opinion, we would call it a selection eminently fit to be made. His voice should be heard from the high places of the land. He stood by the Union in the darkest hour. He stands now equally firm and steady for securing the fruit of that hour's great and fearful conflict. He is a progressive man. He is the exponent to-day of the best thought and highest aspirations of those who bore the banner of the Republic through the smoke and carnage of so many bloody fields. In honoring him Indiana will honor herself and the Union at the same time.

MAGNANIMITY.

The Democrats, ever since the surrender of LEE's and JOHNSON's armies, have been discoursing with wonderful volubility and earnestness, of magnanimity—of its excellence in itself and as a moral ornament, and of its usefulness in the conduct of private individuals and political parties, in obliterating chronic jealousies, in healing mischievous alienations, and in cementing indissolubly the bonds of broken amity and friendship. In what they allege on all these heads there is some sound doctrine and practical common sense, to which no man or woman, rightly organized and tempered, is disposed to frivolously cavil, much less to raise serious objection. But it is manifest these homilists have no intention of practicing towards the Republicans the magnanimity they demand of them in behalf of the rebels; and that in now sinking the claims of public justice into subordination to the sentiment of forgiveness, they are actuated primarily, if not exclusively, by a purpose to shield the guilty, and at some future period enable them to renew, under favorable auspices, the baffled conspiracy against the life of the nation.

When and in what particular did Democrats ever show magnanimity towards Republicans? We remember when the first Republican, chosen to the national Senate, took his seat in that body. We looked upon the Senate often during the first session MR. SUMNER sat in it. He was treated with as much open and brutal contempt as the Democrats now delight in pouring everywhere upon the heads of black men. We remember when MR. SUMNER gained in that body the companionship of MR. SEWARD and MR. CHASE. All three of them were excluded from service on the standing and select committees, with the intention of wounding their sensibilities and degrading them in the estimation of their countrymen. In debate in the Senate, in social intercourse in the city, all manner of indignities were heaped upon them. Nor was a decenter temper or method exhibited towards them in the whole round of democratic journalism. On the platform—in all popular assemblies for political discussion—a most unbounded license of vituperation was indulged and encouraged against them as individuals and against the principles and organization of which they were then the foremost exponents. Nor was this all, nor the coarsest part of it. Commencing in the Senate Chamber and extending all over the country, violent assaults were made upon the persons and properties of Republicans. The wildest outrages were not only perpetrated with impunity, but were everywhere either excused or applauded by the Democrats. What peltings with rotten eggs; what canings; what coatings with tar and feathers; what conflagrations of dwellings, lecture halls and churches, were endured at their hands. MR. JEFFERSON DAVIS autocratically decided that the Republicans were "outside of any healthy political organization;" and this dictu became the pretext and warrant for the most startling excesses. MR. STEPHEN A. DOUGLAS, after calmly witnessing one of the most brutal of these scenes, which has become historic, to the perpetual shame of the nation, excused his apathy and indifference, by stating that he "could not interfere without being misunderstood;" that is, an act of common humanity would have cost him his eminent standing with the Democrats, and crushed forever all his hopes of reaching the Presidency by their votes.

Nor has the virulence towards the Republicans been mollified by the progress of events. The manifestation has been changed, but the animating spirit remains as vigorous as formerly. The Republicans in all the northern States have become too numerous and powerful to be mobbed. They are strong enough to take care of themselves, and to make reprisals, if need be, and hence Democratic ruffians ordinarily keep at a respectful distance. But turn to the democratic journals, and if you do not hear the hissings of the old serpents, your ears must indeed be dull of hearing. What measureless defamations! What invasions of the sanctity of private life! What criminations and impeachments! And these, perpetually and indiscriminately. A stranger to the men and country would have the conclusion forced upon him that the Republicans in all public and private relations were the very offscourings of the human race.

On the top of all this, the appeal to them to be magnanimous to men who have confessedly so violated the laws as to stand stripped of all political rights, and to be justly exposed to the sharpest bodily punishment, presents a peculiar intermingling of impudence and hypocrisy. The Republicans are not likely to take counsel of them in a matter of this sort, for the determination of which, both by natural constitution and by habit, they are of all men the most unfitted.

In this connection it is not irrelevant to repeat that the Republicans in their hour of triumph, and under circumstances of extraordinary exasperation, maintained, on the whole, a most commendable equanimity of temper, a surprising self-restraint, and a large-hearted purpose to subject the natural instinct of revenge to the higher laws of patriotism and religion. In the work of reconstruction, whatever harsh suggestions may have dropped from individuals, smarting under a sense of old wrongs, they have awakened no general response in approval and been incorporated into none of the schemes presented for public ratification. The prevalent idea has not been to retort for the injuries of other years, or to inflict the penalties willfully incurred, but so to adjust the great questions in dispute as to lead, if possible, to immediate reconciliation and permanent amity. MR. SUMNER, notwithstanding the violence done his person and the ceaseless flow of defamation against his character, has held consistently that lenity was the true wisdom. What has appalled the Democrats in his course is his insistence that lenity towards the rebels should be reciprocated by simple justice from them to the blacks. Not even the fresh storm of contumely which the conduct of the President has raised in the South against the Republicans has left a trace of malignancy upon either their feelings or purposes. Personal and partizan considerations are not at the bottom of their policy, and will not be allowed to exert a sinister influence upon their measures. Champions of a great cause, in which the rights and liberties of unborn generations, for many ages, are bound up, they mean rigidly to subordinate whatever is individual and temporary to the higher consideration of that which is public and permanent, and thus inscribe the name of their organization among the benefactors of the human race.

The Senatorship.

It is claimed that the western part of the State is entitled to the candidate, that a man identified with the interests of the west is necessary, and that the Hon. Thos. Williams is the most suitable person. If the question is to be narrowed down to locality, Mr. Williams is most certainly prominent. His ability, statesmanship, integrity and loyalty has never been doubted, but we contend that loyalty has nothing to do with it, that the State at large is interested and none should be elected but those who are willing to legislate for the whole State. The claims of Governor Curtin, we think, are paramount to all others. He is the decided choice of the people, and if left to the people to decide, would be most triumphantly sustained.—*Armstrong Republican.*

GENERAL NEWS.

—Rat, dog and bear fights are the latest cultivated amusements of New York.

—Rev. J. R. Edinger, of Washington City, has abandoned Methodism and become a Unitarian.

—A cousin of Lord Napier has recently purchased a farm in Tennessee for $25,000 in gold, and has sent to England for blooded stock.

—A St. Louis woman taking advantage of her husband's temporary absence, procured a divorce and married again in less than two weeks.

—A young and very pretty dressmaker of Columbus, Ohio, has absconded with a large number of "rich fabrics" belonging to her customers.

—At a wooden wedding in Detroit on Tuesday evening, a joke was perpetrated by a person who was unable to be present. He sent his regrets written on a shingle.

—It is stated that the profits of the Fifth Avenue Hotel during the month of October were $60,000. The average number of guests was six hundred, which would give a profit on each of three dollars a day.

—The new Colt's pistol factory at Hartford will be 600 feet long, four stories high, and cost $200,000. Its walls are three feet thick, and are built of pressed brick, with limestone trimmings, and the entire structure will be fireproof.

—Mr. Warren Ackerman, of Scotch Plains, and formerly of Newark, New Jersey, has pledged himself to give to the Board of Foreign Missions of the Reformed Dutch Church the sum of $56,500, of which $46,500 is to be appropriated to the payment of the present debt and liabilities of the Board, and $10,000 to be added to the invested funds.

—In the Penitentiary of Illinois there are at present one thousand and eight male and forty four female convicts, showing an increase of four hundred over last year. Nearly every convict, of both sexes, chews tobacco, which is given them every Sunday morning in pieces of about four inches square, and which costs the lessee annually $5,000. Every cell in the building is now occupied, and the want of room is so pressing that five hundred new cells had to be constructed, and are now nearly completed.

—Doctor M. F. DeLano, of Sandusky, has spent several years in perfecting the model of a mathematical instrument, which he has named the Longimeter, and which, he claims, will relieve navigators from the long, tedious and often uncertain process of calculating longitude at sea. In brief, to ascertain the longitude of a ship at sea by this instrument, the navigator has only to take his observation as usual, glance at his chronometer, then turn the hands of the Longimeter in accordance with simple rules, and he has before him, in figures, the exact longitude of his ship.

—A St. Petersburgh correspondent writes: "If we want to realize the intrinsic greatness of that wonderful pageant in the Winter Palace, we should remember that Schamyl was there. We all knew that, after a hundred fights at Achulko and other fastnesses, the old hero had long ago made peace with the Muscovite, and was living as an honored State prisoner: but he, too, the fiery and intense Mahometan, the Prophet of a people, came to this city of a week ago to smile graciously as the future lord of the Caucasus was married. Two men alone in this century have recalled the exploits of the old warrior-prophets—Abd-el-Kader and Schamyl. Last year Abd-el Kader was in Paris, grateful to the Emperor: last week, Schamyl was in St. Petersburg, loyal to the Czar."

TO THE DEBILITATED AND THE DECREPID.—For general debility and exhaustion of the powers of nature, whether occasioned by sickness, fast living, constitutional decay, old age, or any other physical or mental cause, the only truthful and indispensable is HOSTETTER'S CELEBRATED STOMACH BITTERS. When the fire of life seems to be absolutely dying out in the system, and the mind, sympathizing with the body, is reduced almost to a state of imbecility, this mighty Restorative comes, as it were, to lift the sufferer out of the Slough of Despond, and recruit and reinvigorate both the frame and the intellect. An old farmer in the Valley of the Monongahela writes thus to Dr. Hostetter: "I can compare the operation of your Bitters upon me to nothing but the effect of a copious rain after a long dry spell in the fall of the year. The rain falling on the meadows starts the second crop of grass, and your wholesome medicine seems to have started a second crop of life and spirits in me." And this is truly the effect of this grateful and powerful preparation. Ladies of weak constitution, or whose strength has been impaired by sickness or age, find it a most efficacious and delightful Tonic, and it is admirably adapted to persons in decline, or wasting of the flesh, to young children. In fact, it is a much safer and surer cordial for the nursery than any intoxicating advertised specially for that purpose.

(ADDITIONAL LOCAL NEWS ON 1ST PAGE.)

The Soldiers' Library—The Present of Mr. Brunot.

We stated yesterday that Felix Brunot, Esq., had made, unsolicited, the handsome present of fifty dollars to the Allegheny Soldiers' League, in aid of their library project. Below we publish entire the correspondence between Mr. Brunot and the Secretary of the League. Mr. Brunot's letter will be interesting, as giving expression to the views of an enlightened and influential gentleman on the subject of the soldiers' enterprise:

ALLEGHENY CITY, November 23, 1866.—J. R. OXLEY, Corresponding Secretary: *Dear Sir:*—Having read with much interest the Address of the Allegheny Soldiers' League, and sincerely wishing success to the project of forming a Library and Reading Room for the entertainment and instruction of its members, I venture to offer a suggestion on the subject.

There have been various societies organized in Allegheny and Pittsburgh in times past, with great earnestness on the part of those interested, and a full determination that they should be permanent, but which have gradually lost their attractions and fallen into decay and final dissolution. Some of them had Libraries collected with much labor, and the books have been lost, or divided among the few members who happened to hold on the longest.

The sincere spirit shown in your Address is evidence that you do not mean to have the Soldiers' League fall in the effort, or drop to pieces—nevertheless, in the nature of things it cannot last very many years. Some of its leading members will remove from the city—others will die; some will become more interested in other affairs, and all will grow old. In this view of the case, would it not be a good idea to devise some plan, at the outset of your undertaking, by which the books you may accumulate can be kept together even after the League shall have been dissolved. You would thus transmit to others the benefit of your commendable labors, at the same time perpetuate the memory of your Association.

This might be done by arranging with the Allegheny Library, or else with the Young Men's Mercantile Library Association, to give one or the other a reversionary ownership of your Library, on condition that the Books together with your records, shall forever constitute a Department or Alcove, to be designated by the name of the League.

The certainty that your collection would remain after your time might also be an additional incentive to maintain a high standard in your selection of Books, and probably would increase the amount of contributions to your funds.

One of the most gratifying things connected with the cessation of war, is the fact, that our brave soldiers have become our best citizens, and that so many of them are striving to improve themselves in the arts of peace, and I feel it to be a privilege as well as a duty, to lend my aid in every effort in that direction. It is this feeling which has led me to write to you, and which impels me to express the prayer that He who gave you success in war, and by whose Divine protection you have "survived the conflict of arms," may give the members of your Society success in peace, and so guide your efforts that they shall tend to your eternal, as well as temporal happiness and welfare.

Respectfully your obedient servant and friend, FELIX R. BRUNOT.

P. S.—Enclosed please find check for fifty dollars.

THE SECRETARY'S REPLY

Rooms of Soldiers' League, Dec. 6.—Felix R. Brunot, Esq.—Sir: As Corresponding Secretary of the Allegheny Soldiers' League, it becomes my official as well as pleasant privilege of replying to your communication of November 23d addressed to this League on the subject of establishing a Library and Reading Room in this city. On behalf of the League, therefore, let me return you sincere thanks, not only on account of the substantial confidence exhibited by you in the undertaking, but also for the kind advice and patriotic sentiments which pervade the document. I need not repeat to you the feelings of the members upon the reading of the message that came from you. It is sufficient to say that they were grateful more than words can express, and this exhibition of your liberality and of your confidence, and as an appreciation of the same, they unanimously tendered to you their sincerest thanks and gratitude, for the idea that the man whose name is identified with every object calculated to elevate the moral and intelligent standard of humanity; the man whose time and money is considered as having not been spent in vain, when engaged in a great and good work; the man who, while war with its vindictive passions, filling the nation with woe, was always at his post, busy, to extend the hand of sympathy to the unfortunate who suffered in the strife, asking no questions, but simply content with doing a good act. To have this man on our side, giving us encouragement and advice, in furtherance of the proposed project, has inspired the members with perfect vigor, the power of which is to leave the plan suggested fall through from neglect, or want of perseverance.

But a few words more, and I have done. Your suggestions carry with them considerable force and truthfulness, and are entitled to great respect, more especially coming from one whose acts have always been in keeping with his professions, and whose counsel looks only to advance the cause in which he is engaged, and which does not spring from any selfish motive. I am authorized to say, simply that the League looks favorably upon your suggestions, and while there has been no action or expression of opinion on the subject, I am of the opinion that your ideas in reference to perpetuating our labors, and preserving a high standard in the selection of books will be fully carried out by appropriate legislation. Thanking you again for your kind regard, I am, very respectfully, your friend and fellow-citizen, J. R. OXLEY.

The minutes of the last regular and special meetings were read and approved.

Mr. Ihmsen, from the Finance Committee, reported that having examined the monthly report of the borough officers he found it correct.

Mr. Welker, from the Street Committee, reported that most of the fire plugs had been placed as ordered.

Mr. Ihmsen, from the committee appointed to act in conjunction with the Lincoln Hose Company, reported that they had ascertained that a good hose carriage could be purchased for seven hundred dollars, and the committee advise the purchase of a new one.

On motion of Dr. Kerr, the Committee was continued with power to purchase a new hose carriage.

The same gentleman also reported that the instructions of Council in regard to extending and improving the wharf had been complied with.

Mr. McIlwaine moved that the Finance Committee be authorized to sell the old engine house on Carson street. The motion was amended by Mr. Ihmsen, which was accepted and adopted, that a committee of three, and one from the Finance Committee, be appointed. Messrs. Kerr, McIlwaine, Welker and Cunningham, were appointed as said Committee.

On Motion of Dr. Kerr, the Burgess was authorized to issue an assessment bond on the property holders on Ormsby street, above Washington, for paving of the street.

On motion of Dr. Kerr, public lamps were authorized to be erected at the above places; also one on the corner of Bingham and Ormsby streets, and one on the corner of Denman and Neville streets.

The following bills were presented and warrants ordered to be drawn for the amounts specified:

Held for a Hearing.—Martin Joyce, the Point rough, whose desperate endeavors to worst the police we reported in yesterday morning's issue, had a hearing before Mayor McCarthy yesterday morning, charged with felonious assault and battery, on oath of officer M. L. Portzer. The facts developed at the hearing were substantially the same as reported by us. The hearing resulted in the accused being held to bail to appear for a further hearing on Monday, December 10th, at ten o'clock in the morning.

That's What's The Matter.—Why is it that the sale of the Wheeler & Wilson Machine exceeds that of all the other machines combined? Simply because ten years' trial of them has demonstrated their superiority so clearly that no prudent housewife will purchase or use any other. For particulars as to price, &c., of these machines, call on the agents, No. 27 Fifth street. They will give you every information on the subject.

The Shoplifters.—Margaret and Mary Ann Snyder, whose exploits in the way of shoplifting we have detailed at length, had a hearing before Mayor McCarthy, and were held to bail to answer at Court for this objectionable mode of shopping.

Low Priced and Good—The Emerson Piano.

To meet the wants of the great number of persons who desire to possess a piano, but do not feel able to go to the expense of the costliest make, and yet would have only a good substantial one, we have made a most careful examination of all the lowest priced pianos made in the United States. The result of this examination is that we have found those made by W. P. Emerson, to be the best pianos for the price, and the cheapest good pianos that are made. They are most substantially built, on the soundest acoustic principals; the wood is the best quality properly seasoned; the tone rich and powerful, and the touch easy and elastic; each one is provided with the true full iron frame, and overstrung bass. They stand well in tune and wear well in every particular; this we know from actual experience. The difference in price between the Emerson Piano, and the more costly makes, is caused by the most rigid economy in the manufacture consistent with excellence, and by a saving of labor on those parts, which neither effect the tone or durability. We do not pretend that the "Emerson" is the lowest priced piano made; many can be bought at a less price. Such pianos we do not keep, having found by our own and others experience that being so poorly made they soon give way, lose their tone, become harsh and discordant, and give no satisfaction to the owner, but are a constant source of expense and annoyance. A piano of this kind is a bad investment, and really the dearest piano any one can buy. We do not and will not keep them for sale. Finding the "Emerson" such a desirable piano, we at once secured the exclusive agency for them for Pittsburgh and surrounding country, and having made special contracts for a regular weekly supply for a long time to come, we can offer them at unusually advantageous rates. All persons desiring the best cheap piano in the market, should not fail to examine the "Emerson" before purchasing any other kind. Liberal discount to clergymen, teachers and cash customers. Call on Charles C. Mellor & Co., 81 Wood street, Pittsburgh.

An Amusing Street Occurrence.

Wednesday we were witness to a transaction on Penn street, which, had it occurred with any other occasion than a funeral, we could have heartily enjoyed. In turning out of a track, the driver of a carriage in a funeral train on its way to the cemetery, drove into a burly German's one-horse iron wagon, and somewhat startled the horse. The driver of the wagon at once threw into a passion, and reining up his horse, dismounted from his seat to the street, picked up an enormous boulder and hurled it at the carriage driver. He missed his mark, narrowly escaping the rear window of the carriage, and making a deep cut in the panel of the carriage from which the stone glanced. The gentleman with many oaths, again got into his wagon, but the driver of the rear carriage had witnessed the affair, and had determined to administer justice in his own peculiar style. He followed the dutch man upon the wagon, and there administered such a scientific castigation as we have seldom seen, upon the front palate of the irate Teuton. The boss in taking flight ran upon the pavement but was soon checked up, and the German so full of fight a few minutes previous, apologized for his rash conduct, in the most humble manner. He was terribly battered, but we could not sympathize with him, as he richly deserved all he got and more. That pugilistic driver should be elected to Congress.

The Runaway Boy.—Thomas Heflines, the father of the boy Joshua Heflines, whose flight from Altoona we reported yesterday, was in the city yesterday morning in search of the runaway. A boy was arrested here on Wednesday evening and some person in the city telegraphed to the father to come and claim his child. He came on but found the boy was not his. Mr. Heflines is in great distress at the absence of his son. The missing boy has a scar shaped like a horse-shoe on his forehead, and the little finger of his left hand is seared around, having been almost entirely cut off.

Another Oil Accident.—On Thursday evening last Mrs. Sarah S. Benson, wife of Mr. Silas Benson, residing at Myerstown, Pa., was pouring coal oil from one vessel to another at a distance of about three feet from a lighted candle, when the whole thing burst into flame, extending instantly to her clothing and enveloping her in fire. Being greatly alarmed, she rushed from one apartment to another, and the flames were not subdued until her clothing was burnt from her person. She died at one o'clock the same night.

Singular and Serious Attack.—An old lady named Elizabeth Foss, living south of Mansfield, Ohio, was recently attacked by a ferocious boar, belonging to Mr. Vosbinder, a neighbor, and received very severe injuries. The hog attacked the old lady as she was passing along the road, knocking her down, breaking her leg and tearing her in a shocking manner. Her life was at first despaired of, but we learn that she is in a fair way for recovery.

Cholera in the Oil Region.—The cholera has appeared in the oil regions of Ohio, Virginia, and in some places is raging with unusual fatality. At Eaton's Tunnel, a small station on the Baltimore and Ohio Railroad, fifteen miles from Parkersburg, there have been fifteen deaths in four days, in a population of not more than one hundred persons.

More Light.—The Crawford *Journal*, published at Meadville, says: Meadville, with a population of nearly ten thousand, and the proud possessor of a city charter, has her numerous streets illuminated by a grand total of nine lamps. With the unlimited supply of gas now manufactured, the number should be increased at least ten fold.

Episcopal Fair.—The ladies of St. John's Episcopal Church, at Franklin, Pa., are preparing for a grand Fair, to be held in Hanna's new Hall, commencing on Wednesday next, December 12th, and will continue during that week. A grand exhibition of tableaux will also be given on Monday evening next, at the same place.

Bears Shot.—We learn that Mr. Leamer, of Frankstown township, Blair county, killed three bears a few days ago. They had carried off a great many sheep from Scotch Valley and the farmers offered a handsome reward for their heads.

Temperate or Not?—There is not a single bar or grog-shop in the borough of Mercer, and business is said to be quite brisk with the wholesale dealers, as every loyer is the owner of a jug and buys by the quantity.

Fenians from Titusville.—It is rumored that a company of Fenians, armed and equipped, are to leave Titusville for the seat of war (wherever that is) on the 15th inst.

Acquitted.—Doe and Parker, who were charged with the murder of McArie at Pithole last spring, were tried at Franklin and acquitted there last Friday.

EARLY TELEGRAMS.

LATE FROM WASHINGTON.

THE REPUBLICAN CAUCUS.

The Impeachment of the President.

WASHINGTON, December 6.—So much of the proceedings of last night's Republican caucus as have been elicited have caused especial comment, because there appears to have been no reference to the threatened impeachment of the President. The meaning of this omission is explained this morning by one of the leaders of the late Council to be merely an intent to conduct this whole matter of Executive inquisition through the medium of a subcommittee of the House Judiciary Committee. This Committee, it is probable, will be composed of Messrs. Boutwell, Wilson, and Williams of Pennsylvania. The speech of the latter upon the exercises of the Executive patronage, and the doctrine therein, strongly urged that to Congress alone pertained the executive right to regulate the dispensation of office, has resulted in a very general desire of the majority to place Mr. Williams upon the sub-committee in question.

It will be remembered that a sub-committee of the Judiciary conducted all the secret investigations of the House last year in reference to the complicity of Jefferson Davis with the assassination conspiracy. The same method is being followed in the case of impeachment, and will undoubtedly cause the preliminary examinations to be conducted under veil of secrecy.

The House Committee on territories met on Tuesday night. Their first action will be in reference to the resolution requesting it to frame a bill into the expediency of forming territorial Governments over the Southern territories. The committee will undoubtedly report in harmony with the views of the extremists on this question. Mr. J. M. Ashley, of Ohio, being chairman, and only two Democrats being on the Committee.

It is understood that the Speaker will, in accordance with the resolutions proposed last night in caucus, and passed in session this morning, nominate the three committees asked for to inquire into the New Orleans riot, to investigate the circumstances attending the murder of three Federal soldiers serving in South Carolina, and report upon the foundation of the report that a Cabinet Minister had procured the pardon of the murderers from the President for a fee of ten thousand dollars, and to report upon what amount of Southern lands the President had restored in defiance of the Act of forfeiture passed by Congress.

The Committee for New Orleans investigation will leave for that city, probably, about the first of January.

Resolution Demanding Protection to the Loyal People of Maryland.

BALTIMORE, December 5.—In the Council this afternoon the following resolution was presented:

Resolved, By the Mayor and City Council of Baltimore, that a Committee be appointed with a view of preparing an address to the National Congress now assembled, setting forth our grievances received at the hands of a recent State Convention, in the matter of construction and interpretation of our State laws, and to make a formal demand upon that body for the protection of the loyal people of Maryland, in the full enforcement of the laws of the State, as they now exist.

After a considerable debate the resolution was laid on the table for the present.

Outrages by Indians.

WASHINGTON, December 6.—A letter from Laposa, dated October 6, received here, informs the Commissioner of Indian Affairs that on the 23d of September a hostile band of Indians killed John Killman, a wagoner, and six mules, which he drove; and that on September 30th John Woodworth, A. Judson, and two men named Baker and Benjamin were killed, and Samuel D. Knowles, wounded, by the Hualapias Indians, while engaged in mining near Fort Mohaves. A party of ten citizens from the vicinity of the Fort, accompanied by a number of Mahauve Indians, under command of a chief named Hans Aastapash, went in pursuit of the Hualapias. They overtook, and surprised their camp at daylight, and killed the whole party, twenty-one in number, losing one Mahauve.

From Canada.

TORONTO, December 6.—More than ordinary precautions are observed by jail authorities, consequent upon information received by them that attempts will be made before the 13th to rescue the Fenian prisoners. Visitors are not admitted under any pretext. A strong guard of the 17th regiment is constantly on duty.

Virginia House of Delegates.

RICHMOND, December 5.—Resolutions were adopted in the House of Delegates this day, to enquire into the expediency of allowing contracts to be made at higher interest than six per cent.

Brewery Seized.

LOUISVILLE, Dec. 5.—John Heid's brewery was seized by the revenue officers here, on account of unlawful distillation of ardent spirits therein.

SOUTHAMPTON, December 5—*Evening.*—The steamship Saxonia, from New York, arrived this afternoon, and left this evening for Hamburg, after having shipped her English mails and passengers.

FLORENCE, December 5—*Evening.*—It is stated that the Government has finally determined not to send Vezza as Envoy to Rome, and that another diplomatist of high station will take his place.

LONDON, Dec. 5.—The *Times*, to-day, in an article on the President's message, says that it agrees with the position taken by the President on the Alabama claims: that the question on that subject should be definitely settled. It argues that the settlement of the affair would conduce to the more perfect harmony of the two governments, and regrets the delay already incurred in the matter.

LONDON, Dec. 6.—An excitement about Ireland is increasing and military and naval authorities are making every preparation to meet emergencies. The Admiralty to-day ordered the dispatch of three iron clads to Ireland, and the military authorities directed the departure of two regiments to some quarters.

PARIS, Dec. 6.—Legal proceedings have been commenced by the United States agents against the parties who furnished ships to the Confederates during the rebellion. Attempts to settle the case by arbitration has failed.

LONDON, Dec. 6.—The United States Assistant Secretary of the Navy, Fox, was most courteously received at all the British navy yards and is thoroughly looking into their operations.

HAMBURG, December 6.—The Hanoverian civil and military officers have been released from the oath of allegiance to him by the Ex-King, at the suggestion of the English Government.

[BY STEAMER ASIA.]

HALIFAX, December 6.—Fenian agitation is again apparent in Ireland. The police at Cork had seized a case on board a steamer from Liverpool, which was found to contain fifty new rifles, with bayonets attached, bullet moulds, &c. A man named Treacy, employed in the firm to which the case was addressed, was arrested.

The naval authorities at Queenstown seized a coal laden schooner from Cardiff, on suspicion of arms being concealed among the cargo. She was searched but it is reported that no arms were found. The unusual arrivals at Queenstown from America attracts considerable attention.

At Limerick on the 23d, ten men were arrested and a large number of pike heads and bullets seized.

A man named John McPherson McGulvany, supposed to be an American Fenian agent was arrested in Dublin on the 26th, immediately after cashing an American draft for 500 pounds on the Hiberanian bank. A revolver was found on him, but no documents. The Dublin police are all armed with six chambered revolverrs.

Advices from Paris generally agree that Maximilian is about to quit Mexico.

The Paris correspondent of the Pall Mall *Gazette* says: The vessels which sail next month for Mexico will be twelve steam transports and eight frigates turned into temporary transports. They will sail after the arrival of the Mexican mail of October 25th.

The London *Times* has no doubt that Maximilian has abdicated, and looks forward to the intervention of the Washington government.

FROM WASHINGTON.

Sedgwick's Move into Matamoras.

NOTHING DEFINITE KNOWN.

Gen. Grant Ordered Him Not to Enter.

WASHINGTON, December 6.—We have good authority for saying that General Grant up to this hour has not received a word touching the reported entrance of General Sedgwick into Matamoras and the military operations around that city.

General Grant received a letter from Gen. Sheridan, dated November 29, five days after the reported entry into Matamoras, in which he says he had ordered General Sedgwick not to make his proposed movement, as the same was entirely disapproved of. If the movement was made into Matamoras as reported we are not authorized to say. General Sedgwick has been placed under arrest and will be punished.

General Sheridan, it is believed, reached Brownsville on Tuesday last. Such was his expectation, as stated in his letter to General Grant.

It is not believed here that General Sedgwick intended any wrong, but if he entered Matamoras as reported, he has been overreached by that pirate, who, by the way, is now at heart Imperialists, and who have lately been entertaining him with sumptuous dinners.

Proposed Free Hospital in Atlanta—Present for Gen. Thomas—Great Mussachusetts Fair—Fire.

NEW YORK, Dec. 6.—Efforts are making in this city to obtain contributions for the support of a free hospital in Atlanta, Georgia. The destruction of a large part of that city deprived the poor people of the means of support, and many of them are now living in tents and shanties.

Tiffany & Co. have just completed a handsome gold medal to be presented by the State of Texas to Gen. Thomas. It is three and a half inches in diameter and weighs one pound troy.

Last night and to-day the Masonic Fair has been visited by several thousand persons. The building is handsomely lighted. The Fair opens to-morrow and it is the expectation of the Committee to make this the most attractive and remunerative Fair ever held here since the great Sanitary Fair. One hundred thousand dollars worth of articles are in the Fair, and the receipts, it is thought, will reach $150,000.

A fire at No. 5 Mercer street early this morning, destroyed $7,000 worth of property.

Testing Life-saving Apparatus.

NEW YORK, December 6.—A committee of United States Steamboat Inspectors of San Francisco, Philadelphia and Boston, accompanied by a number of Federal and State officials, went down the bay this morning to test several recent improvements in life saving apparatus for instantaneous disengagement of life boats, that of Messrs. Disengage-Level, ordered by the Secretary of the Treasury for all the Government revenue steamers, received the highest approval. Frazer's metallife raft, which was also tested in a variety of ways, stood a most satisfactory test.

A curious situation is the case of the Rev. Mr. Williams, accused of picking a lady's pocket in a Broadway stage, was had to-day, but without reaching a conclusion. Right Bishop Potter and many distinguished clergymen were in attendance.

There have been immense arrivals of barley at this port to-day by canal boats.

The Crops in Louisiana—Disfranchisement of Rebels.

NEW ORLEANS, Dec. 6.—Advices from the Interior of Louisiana show that the people are disappointed in the crops this season, the worst for twenty years in the breadth of land planted, are about to start early for the crops of 1867. It is likely less land will be planted for want of means, but there will be more diversified farming.

The greatest quietude seems to exist to political matters, which were hardly alluded to even by the party papers.

The colored organ here to-day again signifies its disapprobation of the disfranchisement of the Southern rebels, and its want of confidence in Southern Unionists, and instances Missouri and Tennessee for examples.

Railroad Decision.

CINCINNATI, Dec. 6.—The United States District Court at Covington, Kentucky, to-day decided that railroad companies cannot be held responsible for killing stock unless the decision was made in a suit brought against the Kentucky Central Railroad for the recovery of thirteen mules killed by cars on that road in 1862.

There are nearly nine hundred convicts confined in Ohio Penitentiary.

Governor Patton, of Alabama, to-day sent a special message to the Legislature, recommending the adoption of the Constitutional Amendment. The message was referred to the Committee on Federal Relations.

From Canada—The Fenian Trials.

SWEETSBURG, C. E., Dec. 6.—The trials of the Fenians have been postponed till Monday next. The Grand Jury presented true bills against fourteen of the Fenians. With reference to the remaining prisoners, Thomas Powers and Daniel Coburn, the Grand Jury found no bills against them and they were discharged. Seven of the prisoners were citizens of a foreign State at peace with Her Majesty's Government. In each of these cases two true bills were found.

It was referred to the Committee on Invalid Pensions.

Mexican Matters.

NEW YORK, December 6.—Orizaba, Mexico, correspondence, of November 23d, says that the last French steamer, which brought off President Miramon, also carried three hundred French soldiers, destined for service in Mexico. This, and other events, do not point to an early French evacuation. Military stores and ordnance have been moved towards the interior, and recently Gen. Dondy, with his regiment of one thousand men, commenced a fresh campaign in Northern Mexico. Maximilian is glowing enough. He is in his residence at Orizaba. He sees no visitors and has no interviews with any one.

OFFICE OF THE PITTSBURGH GAZETTE, THURSDAY, December 6, 1866.

The New York stock quotations to-day, as reported by Robinson, McClean & Co., were as follows: Gold, 139¼; 1881's, 113; 5-20's old, 108½; do '65, 107½; 5-20's, new 108½; 10-40s, 106½; 7-30s, first series, 105⅝; do 2d and 3d, 105½; Michigan Southern & R. R., 80¼; Cleveland & Pittsburgh, 84½; Pittsburgh, Fort Wayne & Chicago, 105; Chicago & Rock Island, 103¾; Reading 111¾; Chicago & Northwestern, 50¾; Erie, 71½; Western Union Telegraph Co., 46.

—The Internal Revenue report shows that the Treasury receipts from this source have advanced from $117,145,748 in 1864, to $211,129,220 in 1865, and $310,906,884 in 1866. The expense of collection was $7,689,700, or about 2½ per cent of the aggregate receipts. This is a lower rate than that of last year, and compares favorably with the expense incurred in Great Britain and France for the same object.

—In regard to the price of breadstuffs the New York *Express* says:

The journals all over the country, continue to hammer away at what is called the hoarding of breadstuffs by speculators (as we are operating (in a variety of ways) for a rise—but we do not see that hammering does much if any good. The hoarding goes on and prices are kept up. There are two reasons that seem now to be pretty well established. The high prices of breadstuffs are maintained by two leading markets, Chicago and New York. Chicago hoards the breadstuffs to prevent more than a limited quantity from reaching the seaboard, while New York underrates systematically her receipts of breadstuffs from the interior and keeps up prices by hoarding, by foreign shipments and by other well-known expedients.

It is difficult to say what is the remedy for this state of things, but the speculators and hoarders had better not act as if the difficulty were an insurmountable one. There is such a thing as pushing monopoly and speculation a little too far and to that point we would now seem to be progressing.

—The New York Bank statement for the past week, as compared with the preceding returns, shows a decrease of $4,308,747 in loans and discounts, $245,857 in specie, $873,796 in legal tenders, $4,625,807 in nett deposits, and an increase of $32,451 in circulation. This movement is the very reverse in the same direction as that of the statement of the Philadelphia banks, showing a general cause. It is said the reduction of five millions of loans at New York is, for the most part, the result of heavy payments made by borrowers. If this be so, it evidences a general acceptance of the truth of the remark, that the best use to which money can be applied is to be directed to debts. The loss of greenbacks on the present exhibit is only $875,000, with the prospect that no further present drain will be made on this item of the circulation, while the steady supply of National Bank Currency continues to gradually increase at all the financial centres.

The market for money to-day. The public documents published yesterday have had little if any effect on the money or stock market. The circulation of the banks will attract more attention when the report of the Secretary of the Treasury has been generally read, and its recommendation to reduce greenbacks at the rate of six millions, and eventually ten millions per month, duly noted. The forty-five millions of 7-30 notes will be speedily absorbed with $31,250,000. One bank over $5,500,000, one nearly $3,000,000, and ten an average of $1,000,000 each.—*Phila. Ledger.*

CENTRAL LIVE-STOCK MARKET.

OFFICE OF THE PITTSBURGH GAZETTE, THURSDAY, December 6, 1866.

CATTLE.

The market for cattle, compared with last week, is considerably stronger and a much firmer feeling has prevailed. The receipts have been comparatively light, and this, together with an improved demand for shipment, turned the scale in favor of sellers this week, and consequently, an advance has been established. The quality of the cattle on sale this week was hardly up to the usual average though all kinds of cattle sold more readily than last week, and that, too, at an advance, and to-day there were but very few of any kind in the pens unsold. As will be seen by reference to the sales, prices ranged all the way from 4¼ to 6¾, gross, for common to pretty good fat; fleecy cattle were considered that no strictly prime cattle changed hands, and there were but few of that kind in market. We are cognizant of an offer of 8 cts having been made for a drove of 1,400 lbs, and loads of extra Ohio steers, averaging 1600 lbs—the owner preferring to ship them east on his own account. This was an extra drove, and best that has been offered here for some time, and some few weeks ago, these same cattle, had they been here, would doubtless have sold readily at 9, and possibly 9¼.

SWINE.

The transactions in Hogs have been remarkably heavy this week, the sales, including Monday, Tuesday, Wednesday and to-day up to eleven o'clock, reaching *nine thousand four hundred and fifty-two*. As compared with last week, prices have further declined, the great bulk of the sales ranging from 5¾ to 6 cts, gross—some few lots of "picked" Hogs bringing 6,12 to 6,25, one lot 6,30. One of our packing houses, that of Harbaugh & Co., commenced buying this week, having that in view, purchased about one thousand head, at prices ranging from 5,80 to 6,05. Of the sales for shipment, the bulk were for Philadelphia and New York, though to believe a few car loads were forwarded to Baltimore.

SHEEP.

The transactions in Sheep were remarkably light this week, the transactions all told not exceeding one thousand head. The market will continue light, but notwithstanding the supply is limited, the demand is very light, and the market is dull and neglected, sales of any kind are barely maintained. We quote at 3 to 3½ cts, gross, for common to prime fat mutton sheep, and these may be regarded as the extremes of the range. Among the sheep sold was a drove of Lambs. Among the sales we can report Hesser, Loyd, Dettrich, Esq'l—the last named buyer up to noon to-day had not purchased a single bunch, though he was willing to pay 7 cts for a drove or two of good sheep.

Baltimore Cattle Market.

BALTIMORE, December 6.—The cattle market is better supplied. During the week some 1,220 head of beeves were received. The offerings included 600 from Western Virginia, 400 from South-western Virginia, and 415 from Ohio. Of the offerings 75 heads were withdrawn, 100 sent to Philadelphia and New York, 250 sold to graziers and feeders, 65 to butchers and the balance taken by butchers at prices ranging as follows: Best Battle to graziers at $5,50@6,00; one lot at $6,37½; sealawags and cows, $4,00@4,75; light heifers, $5,00@5,50; fair $6,00@6,50; good $6,75@7,00; prime $7,25@7,90, but very few at the last price. A few extra cattle were sold to New York dealers on Wednesday at 6,80. Hog—Receipts and demand moderate; packers still keep out of the market, and butchers buy very sparingly. Sales have ranged from 10@10½c nets. Sheep—Receipts have been light, but butchers are well supplied, and have bought sparingly at 5@6c, according to quality. Though the quality of the offering is not better sheep and lambs continue dull and depressed, the best droves of sheep bringing 5½c and lambs 7½@7½c. Swine are very dull and heavy, with a light demand from packers; 7@7½c is the highest figure.

PITTSBURGH MARKETS.

OFFICE OF THE PITTSBURGH GAZETTE, THURSDAY, December 6, 1866.

The inclement condition of the weather had a tendency to restrict business to-day, which, at best, has been nothing to brag of for some time past. The uncertainty, and we might say, confusion, which prevails in commercial circles, both east and west, has a tendency to retard operations here, and until matters become more settled, and there is a little more stability manifested in regard to values, no improvement can reasonably be expected. Buyers for nearly every article are holding off, and restricting their purchases as much as possible, in anticipation of a still further depreciation in values, and consequently, we have very few operations of a round lot character to report.

GROCERIES—There has been a moderate degree of activity manifested in the produce markets during the past week, but prices, generally speaking, are lower. Rio Coffee has declined to 25 to 28, for fair to strictly prime. Cuba Sugar is quoted at 11½ to 12¾; Porto Rico, 13; Crushed, 16¼; "A" Coffie, 15¾; "B" Coffee, 14¾. Porto Rico Molasses, 75 to 85—the latter figure for choice. Rice, 10 to 10½. Black Teas, 75 to 1,25, and Young Hysons at 90 to $1,20.

GRAIN—There is no improvement to note in the demand for Wheat, and No. 1 Spring may be quote nominally at $2,55 to $2,60. New Corn is quiet and unch anged at 60 to 65—receipts falling off. Oats quiet and unchanged—quoted at 48 to 50, on track. Sale of 600 bush prime Spring Barley at $1,65. Rye—last sales at $1,28 to $1,35. Receipts of Grain of all kinds falling off.

FLOUR—Is quiet and without quotable change. Spring Wheat brands are selling at $11,50 to $12; Winter Wheat, $13 to $14, and Fancy Brands $16 to $16. Rye Flour is quoted at $8½ per bbl, and Buckwheat at $4½ per cwt.

POTATOES—Steady with regular sales of prime Peach Blows at 90 cts per bushel, and $2,87 to $3 per bbl—50 barrels sold to-day at $3.

APPLES—Dull with a supply considerably in excess of the demand, but unchanged—sales at $2½ to $3¾ per bbl, for common to choice.

BUTTER—Continues very dull and the supply is considerably ahead of the demand; prime Roll cannot be fairly quoted above 28 to 30.

CHEESE—Continues very dull and prices are lower—quoted at 16 to 17 for Hamburg, 19 to 20 for Goshen.

DRIED FRUIT—Dull but unchanged—18 to 22 for Peaches (quarters and halves) and 10 to 11 for Apples.

HAY—Prime baled Hay, in good condition, sells readily at $30 while loose is reported at $30 to $33, as to quality.

SEEDS—Is Unsaved in steady demand at $4—nothing doing in Timothy or Clover Seeds.

PITTSBURGH PETROLEUM MARKET.

OFFICE OF THE PITTSBURGH GAZETTE, THURSDAY, December 6, 1866.

CRUDE—The market continues dull and weak, and with a "big" river and considerable oil offering, the tendency is still toward lower rates. We can report sales of 1 000 bbls at 9¾; 1000 at 9; 1200 (44 gravity) at 8½; and 160 at 14½, packages included, free on board cars. We quote at 8½ to 9 cts, bbls returned and in bulk. Refined is dull and nominal. One party informed us that he was offered during the day at least 10,000 bbls at 9, and some lots of light oil at 9½. On the other hand, we are cognizant of offers to buy pretty freely at 7 to 8 cts—one party offering to take 10,000 bbls at 8; and another expressed a willingness to buy 5,000 bbls at 7 cts, and give them three months to deliver it in. These parties want to buy on speculation, and it is probable that in the event of the price dropping down to the figures above indicated, a considerable amount will be purchased and put in tank. It should be remembered, however, that when oil was selling at 12 to 14 cents, these tank men promised to buy largely at 10 cts, but lowered their figures down to 7 and 8, and it is possible that if oil should get down to these figures, they will then want to buy at 6.

REFINED—There is no improvement to note in the demand for bonded oil, and the market continues dull and weak with a drooping tendency. We can report a sale of 2000 bbls at 19½ cents, delivered here, at 27 cents, free on board cars here; and 1000 bbls for immediate delivery in Philadelphia, at 30. Quoted as high as 30, for immediate delivery in Philadelphia, 30½ for all this month, and 31 to 31½ for January. Free oil continues dull and neglected, as the demand is restricted entirely to supplying the local wants of the local trade. Standard brands may be quoted at 42 to 48 cts for 50 and 100 bbl lots, and 50 to 52 in a retail way.

NAPHTHA—The following arrivals were reported to-day:

Little & Williams.....	1500	H. McKelvy.....	600
Fisher & Bro.....	2700	Baxter & Ellison.....	1500
T. F. Long.....	90	Jas. Wilkins.....	307
